

## No Show/Late Cancellation Policy

Your physician has prescribed a treatment schedule for your healing, and it is important that you arrive on time for each visit so we can provide you the best care possible. We value following your physicians plan of care and any missed appointments take away from our ability to do so. From time to time, emergencies or sickness does happen. However, if there is **1 NO SHOW appointment**, we will not schedule you for any future appointments. If there are **2 cancelations made less than 24 hours before appointment**, you will be placed on a “**Day of appointment Call In**” rather than scheduling out future appointments. This will help us manage our schedule and be able to serve all our patients.

Thank you for your consideration with this policy.
